DETAILED ACTION

Page 2

Specification

1. The specification is objected to as failing to provide proper antecedent basis for the

claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the

following is required: That the support is V-shaped...

Claim Objections

2. Claim13 is objected to under 37 CFR 1.75© as being in improper form because a multiple

dependent claim should not refer to another dependent claim. See MPEP § 608.01(n).

Accordingly, the claim has not been further treated on the merits.

Drawings

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every

feature of the invention specified in the claims. Therefore, the v-shaped cross section must be

shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office

action to avoid abandonment of the application. The objection to the drawings will not be held in

abeyance.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

5. Claim 1, line 5 recites the limitation ""the middle" and claim 1, lines 8-9 recites "the edge""... There is insufficient antecedent basis for this limitation in the claim.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose pacifiers with openings in shield guards...

7. Claims 1-12 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Gloria Hale whose telephone number is (703) 308-1282.
